

SHRISH NANDAKUMAR WOOTHUKADU

Ph no: +917200196684

Mail : shishnan88@gmail.com

Location : Chennai, TN

SUMMARY

Final Year Computer-Science Student with strong foundation in python and software development, interested in Cybersecurity and Data science. Experienced in working with AI models, data-driven systems and real time integrations. Eager to build intelligent, scalable, and secure Technology solutions to solve real world problems.

PROJECTS

Dating App

- Developed a basic dating application using HTML, CSS, and JavaScript to demonstrate the core functionalities of a dating platform. Focused on creating a responsive and interactive front-end interface.

Gym Management System

- Created a basic Gym Management System using MySQL, PHP, HTML, and CSS. The system handled customer data input, membership details, and administrative tasks for gym operations.

Music App Clone

- Built a fully functional music application inspired by Spotify, as part of a UI design project. Implemented front-end features to support playlist management, user interaction, and music playback

AI Powered ATC CHATBOT (ongoing)

- Developing An AI Driven Intelligent Air Traffic Controller Simulation integrated with Microsoft Flight Simulator to replicate real-world ATC communication with contextual awareness.
 - Key Tech:-
whisper.cpp, DistilBERT(ONNX runtime), SimConnect, Finite state machine(FSM) and MeloTTS
 - Objective: To enable aspiring pilots to practice standard ICAO Radio Telephony procedures in a simulator-driven, AI-powered ATC environment.
-

EDUCATION

B S Abdur Rahman Crescent Institute of Science and Technology

July 2022 - Current

Bachelor of Technology in Computer Science and Engineering

- Current CGPA - 7.3
-

INTERNSHIP

InternzLearn – Data Science Intern

Explored my interest in Data Science through hands-on experience with data collection, cleaning, mining, extraction, preprocessing, and visualization using core tools and frameworks.

InternzLearn – Corporate Representative

Developed strong communication and marketing skills while understanding customer needs and applying effective professional communication and marketing strategies.

SecureB4 - Cybersecurity Intern

Gained hands-on exposure to core cybersecurity domains, including Breach and Attack Simulation (BAS), Application Security Posture Management (ASPM), Cloud Security Posture Management (CSPM), and Penetration Testing. Worked with tools like OWASP ZAP to identify vulnerabilities and strengthen understanding of real-world web security practices.

CodeTantra Front-End & Backend development

Basic understanding of front-end development, with foundational knowledge of HTML, CSS, and JavaScript. focused on front-end development to gain hands-on experience, deepen understanding of front-end functionalities, and learn how to effectively integrate backend systems

HARD SKILLS

Concepts & Fundamentals

- Programming Fundamentals :
- Web Basics :
- Database Management :
- Python
 - HTML
 - SQL
- C++
 - CSS

Languages

- English
- Telugu
- Tamil
- Hindi

SOFT SKILLS

Event Co-ordinator

- Coordinated cultural events like Talent Hunt and technical symposiums such as Arcane 2K25. Managed social media promotions and event marketing, contributing to successful outreach and engagement.

Clubs

- being a part of spreading awareness through the Social Awareness Club (SAC).

Others

- Public speaking, Time Management, Emotional Intelligence, Team Work & Adaptability

CERTIFICATIONS

- Python Programming –
- Mobile App development –
- Front-End and Back-End Development –
- Data Science –
- English Communication –
- **AWS CLP** (on going)
